

I am a contributing member to K-LOVE Radio Network because it provides a positive atmosphere in our home and in the car. There is so much negative influence by the media and society in general that any positive influence is a welcome site. We as a Christian family are trying our best to be a positive influence to who we come in contact with. This programming is supportive of our efforts as well as broadcasts uplifting music and advice. If this programming will be displaced by an LPFM broadcaster it will be a public a deservice because it will remove all the positive influence it has on it's audience. Please, do not allow an LPFM broadcaster to encrouch on K-LOVE's radio "space". Let K-LOVE continue it's ministry in supporting the community.
